Period: _____ Date: _____

Camera Modes Rubric • 28 pts.

Section 1: Vocabulary (pages 1 & 2)

Dimension/Task	Exemplary 4	Proficient 3	Emerging 2	Beginning 1	Unsatisfactory 0	Total
Student demonstrated understanding of vocabulary section terms.	Student correctly identified all vocabulary in section.	Student correctly identified 80 percent of modes terms in section.	Student correctly identified 70-75 percent of modes terms in section.	Student correctly identified only half of modes terms in section.	Student did not fill out modes terms in section of worksheet.	

Section 2: Using Camera & Collection of Data (pages 3-5)

Dimension/Task	Exemplary 4	Proficient 3	Emerging 2	Beginning 1	Unsatisfactory 0	Total
Student demonstrated understanding assignment directions and correctly used **camera modes**.	Student took all photos for each of the 10 modes listed in all three lighting conditions.	Student took 80 percent of the photos for each of the 10 modes listed in all three lighting conditions	Student took 70-75 percent of the photos for each of the 10 modes listed in all three lighting conditions	Student took 50 percent of the photos for each of the 10 modes listed in all three lighting conditions.	Student took less than 50 percent of the photos for each of the 10 modes listed in all three lighting conditions	
Student demonstrated understanding assignment directions for **different lighting conditions and correctly took photos in different lighting scenarios**.	All photos were of same subject in each of the lighting areas.	One or two of the photos were not of same subject in each of the lighting areas.	Most of the photos were of same subject in each of the lighting areas.	Few of the photos were of same subject in each of the lighting areas.	None of the photos were of same subject in each of the lighting areas.	
Student demonstrated ability to record and collect data.	Student wrote down exposure data for all of the photos	Student wrote down exposure data for 80 percent of the photos.	Student wrote down exposure data for 70-75 percent of the photos.	Student wrote down exposure data for 50 percent of the photos.	Student wrote down exposure data for less than 50 percent of the photos.	

Section 3: Using Camera & Collection of Data (pages 4-6)

Dimension/Task	Exemplary 4	Proficient 3	Emerging 2	Beginning 1	Unsatisfactory 0	Total
Student demonstrated ability to create contact sheet using Abobe CS6 Bridge and PhotoShop and print it out.	Student created saved file and printed out contact sheet containing multiple image files with fills correctly rotated for best fit.	Student created, saved file and printed out contact sheet containing multiple image files.	Student created, saved file and attempted to printed out contact sheet containing multiple image files.	Student created images but did not succeed at printing out contact sheet containing multiple image files.	Student did not create images.	
Student demonstrated ability to use text in PhotoShop by transferring data on to contact sheet.	All photos were correctly and clearly (readable) labeled with metadata on contact sheet.	All photos were correctly labeled with metadata on contact sheet.	Most photos were correctly labeled with metadata on contact sheet.	Few photos were correctly labeled with metadata on contact sheet.	None of the photos were labeled with metadata.	

Section 4: Reflection (pages 7 & 8)

Dimension/Task	Exemplary 4	Proficient 3	Emerging 2	Beginning 1	Unsatisfactory 0	Total
Student demonstrated understanding of project by reflection on their work and answering questions on project.	Student's answers showed in-depth understanding of project content and targets	Student correctly answered all reflection questions demonstrating understanding of project content and targets.	Student answered all reflection questions but failed to understand all project content and targets.	Student answered all reflection questions but failed to understand content and targets.	Student did not fill out reflection questions.
